Frontend engineer with 4+ years of experience in developing complex web and mobile apps for clients in the banking and e-commerce fields. I specialize in the **JavaScript** ecosystem, thriving in an **agile** environment and leveraging modern technologies such as **React** and **Nextjs**. Expert in crafting cohesive **design systems** and **UI libraries** for scalable **frontend architectures**, with a focus on **web performance optimization** and **accessibility**.

Professional Experience

Frontend Engineer

Entelgy

Madrid, Spain

October 2023 - Present

- Actively contributing to the development and enhancement of a critical payment module for a client in the banking sector, leveraging **micro frontend** architecture and **React** with **Typescript**, which led to a 20% improvement in page load times and a 15% increase in user engagement.
- Tasked with delivering system robustness and reliability, implementing a thorough **unit** and **integration testing** to deliver a 80% code coverage utilizing **Jest** and the **React Testing Library**.
- Operating within an **Agile** framework, engaging in bi-weekly sprint cycles focused on the iterative development of user-centric journeys.
- Instrumental in the seamless integration of **analytics** tools and **RESTful API** endpoints, enhancing the application's functionality and user experience.
- Responsible upon delivery that all **UI components** adhere to **accessibility** standards, implementing thorough testing protocols including the use of **screen readers** and using accessibility auditing tools such as **WAVE** and **Axe**.
- Ensuring best practices in our frontend services through **pair-programming** and periodic **code reviews**.

Technologies: JavaScript, TypeScript, React.js, Next.js, Styled Components, Redux, React Context API, Node.js, AWS(EC2, S3, ECS), Docker, Nginx, PostgreSQL, Git, BitBucket, Bamboo, Sonar, Restful APIs, Microservices Architecture.

Frontend Developer

Orienteed

La Coruña, Spain

August 2022 - September 2023

- Assigned to collaborate with **Tods**, a high-end luxury fashion brand, as part of the agency's commitment to their top-tier clients.
- Ensured **bug-free** code by proficiently using **Redux** and **Redux Saga** for advanced **state management**.
- Executed a strategic optimization of the codebase to significantly enhance performance and scalability. This included a successful **refactoring** of 80% of the cross-brand **UI components library**, transitioning from **React class-based components** to a more efficient **functional component architecture**.
- Involved in the development of several features and maintenance of e-commerce stores including [Tods](#), [Roger Vivier](#), [Fay](#), and [Hogan](#).
- Worked on the migration of a **PWA** of type **FaaS**, from **React 16** to **Nextjs 13** where we optimized and reached a 50% increase in performance and 65% increase in user engagement.

Technologies: JavaScript, TypeScript, React, HTML, CSS, Sass, Styled Components, Next.js, Redux, Redux Saga, Node.js, Express, PostgreSQL, Git, Restful APIs, Jest, React Testing Library, JSON Web Tokens (JWT), Docker, Jira.

Frontend Developer

Hi-Interactive

Lisbon, Portugal

May 2021 - July 2022

- Collaborated with **BPI**, one of Portugal's largest banks, to provide technical expertise in **application development** and **maintenance** using **React**, **Javascript**, **Styled Components** and **Storybook**, for the documentation of the **UI Components library**.
- Worked closely with **UX/UI** design teams to ensure the delivery of visually appealing, user-friendly applications that aligned with the bank's functional requirements.

- Responsible for critical tasks such as **bug fixing**, feature development, and enhancing application performance and scalability.
- Contributed to the development and maintenance of several key web applications, including [Banco BPI](#), [BPI AGE](#), and the [Official Website of the City of Oakland](#).

Technologies: JavaScript, React, HTML, CSS, Sass, Node.js, Restful APIs, Jest, Git, Asana.

Freelance Frontend Developer

Upwork

March 2020 - September 2023

Development of **landing pages** and **e-commerce** applications for different clients:

- Developing and delivering web pages and ecommerce features using **WordPress** and **WooCommerce**.
- Responsible for developing and integrating new features, ensuring pixel-perfect UI design in all projects, and doing maintenance of existing web applications developed in **React** and **Nextjs**.
- Skilled in collaborating remotely with clients, ensuring clear communication and successful project delivery.
- Consistently deliver projects on time and within budget, maintaining high client satisfaction.

Technologies: JavaScript, React, HTML, CSS, Node.js, Express, MySQL, MongoDB, Git, Restful APIs, Wordpress, WooCommerce and Shopify.

Education

- **Fullstack Web Development Bootcamp**, *Le Wagon*, Lisbon Portugal.

January 2021 - April 2021

Skills and Technologies

- Languages: JavaScript, TypeScript
- Technologies: React.js, React Native, Next.js, Redux, Redux Saga, React Query, Node.js, AWS Amplify, Docker, Nginx, PostgreSQL
- Other: Web Accessibility, Web Performance, Restful APIs, Microservices Architecture

Languages

- Portuguese: Professional Proficiency
- Spanish: Professional Proficiency
- English: Professional Proficiency
- Italian: Native Proficiency
